Description

H-31234 CERAMIC WIRE GUIDE H31234 3/4"

- 2. Feed the wire through the Ceramic Bushing.
- 3. Feed the wire through the Wire Tensioner as depicted in picture above.
 - a. If the wire tension is too great one of the rollers may be removed.
- 4. After the wire tensioner the wire passes through a hole in the baler frame on the tier side, and through a wire guide on the off tier side.

- 5. Thread the wire through the wire guide. The wire goes between the support bar and the roller as depicted above.
